

Sports Day 2.0

This Friday we will be gathering on the oval to compete in some of the Athletics events that we missed at last weeks Sports Day. We know our Junior Students missed the majority of their events, so we wanted to give them the chance to still enjoy the sports day atmosphere.

Students may wear their house colours again on Friday in preparation for our afternoon of fun.

Check out the timeline for the afternoon and if you are available, feel free to pop in and support the students. If you would like to help us set up and run the event please contact Chloe.

Friday 11th of March 2022

Black Hill Primary School Oval

	PA	PB	PC	1/2 A	1/2 B	1/2 C	1/2 D	1/2 E	1/2 F	3/4 A	3/4 B	3/4 C	3/4 D	3/4 E	5/6 A	5/6 B	5/6 C	5/6 D	5/6 E	5/6 F

3:20pm	House Shield Presented and then head back down for dismissal																			

Code Camp Expressions of Interest

Black Hill Primary School are looking to partner with Code Camp to offer you a weekly after school program. Our fun and engaging content ensures students not only learn the fundamental concepts of coding, but are also challenged with more advanced concepts as the term progresses. In addition to coding, we also offer stop motion animation and drones!

For our coding program, each week, students work with our Code Camp Facilitators to build awesome creations using Code Camp World. This is an online educational coding platform developed exclusively by us at Code Camp, meaning we can truly focus on the fun aspects of coding and the students can continue to code at home!

Stop motion animation is the exciting intersection between storytelling, art and technology! Your child will create two movies from scratch using stop-motion animation. Stop-motion is the process of taking multiple images of objects and stitching them together to look like they're moving - it's an incredibly fun and creative way to tell a story!

Drones is our newest hands-on technology program! Developed by professional drone pilots, we will take your child on an adventure around the world as they pilot their very own flight missions. From learning the fundamentals of drone technology and safety to discovering how drones can fight bushfires and rescue koalas. This course is the perfect balance of STEM learning, teamwork and how technology can have a positive social impact.

The program would run once weekly on either Monday- Thursday afternoons from 3:45PM - 5:00PM over 8 weeks of the term. The cost is \$260 per student, per term for coding and stop motion animation, and \$290 for drones.

Go to this link to register your interest. (Minimum of 10 to run Code Camp)
